

ARE YOU READY FOR THE NEW CALIFORNIA BUILDING CODES ?

If you are an architect, engineer, designer or contractor that performs work within the State of California, please be advised that a new building code will take effect on January 1, 2011. The new building code is based on the 2009 International Building Code (IBC).

All plan review applications submitted after December 31, 2010 will be required to comply with the new code. The 2010 CBC, CRC and CAL Green Codes will be available for purchase directly from the International Code Council, at www.iccsafe.org.

All designers and contractors will need to participate in training before the new codes take effect. Training classes are available through the following organizations: California Building Officials Association and the International Code Council.
